State of Texas

Population Growth 2000-2010

**The Minority Community Provided
90% of the State Growth
And as a Result the Texas
Congressional Delegation was
Increased by Four Seats.**

**Veasey Plaintiffs
Appendix
No. 4**

In Context this Almost 4,000,000 Growth in the
minority Community Would Equal the Population
of 25 State House Seats

While the White Population Growth Approximately
2.5 State House Seats

Had the Texas Minority Population Grown at the
Same Rate as the White Population

Instead of Gaining Four Congressional Seats

The State would have Lost At least One and
Probably Two Seats

Stated Otherwise, The Enormous Growth of the
Minority Community Represents a Swing of Six
Districts

93

District 93 is fish hook shaped district that essentially winds from suburban heavily Anglo North central Tarrant County to the East central. What happens is that the state took a compact heavily minority fast growing area in the Central Cities that was in the former District 93 and ties it in with the Suburban Northern part of the County. This heavily minority area contains a total of almost 37,000 persons and based on the 2000 Census was more than 67.2 % minority. The balance of the old district 93 and Logically this minority area should have been added to District 106 which contains the balance of the central cities area.
